- Level of detail
- Use of simple language and terms
- Length of presentations
- Please explain or provide your own review:

Treaty Review Comments

1. I want the Treaty Review team to consider these issues:

• continue to consider impacts on navigation

• don't raise levees such that populations are
separated from the water, detracting from
quality of life

2. Are there any study areas that you think we have missed in Iteration 2? Any gaps in our analysis?

(see reverse)

3. As we move into our third phase of analysis, Iteration 3, what are your priorities for our attention?
